

MATCH THE PRINT TO THE EXTINCT CREATURE

Some very weird and wonderful creatures once roamed the earth, like the ones below
Can you match the extinct creature to its paw print?

A Tasmanian Wolf

This looked like a striped dog,
but it had a pouch like a Kangaroo!
It had four toes just like a dog.

The Stellers Sea Cow

This creature lived in the
sea and had no feet at all!
But it did have a big beating tail!

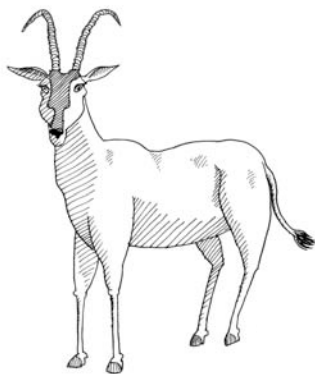

The Great Auk

The Great Auk had
very long webbed feet,
like a big penguin.

The Moa

This big flightless bird had
large feet and just three toes.

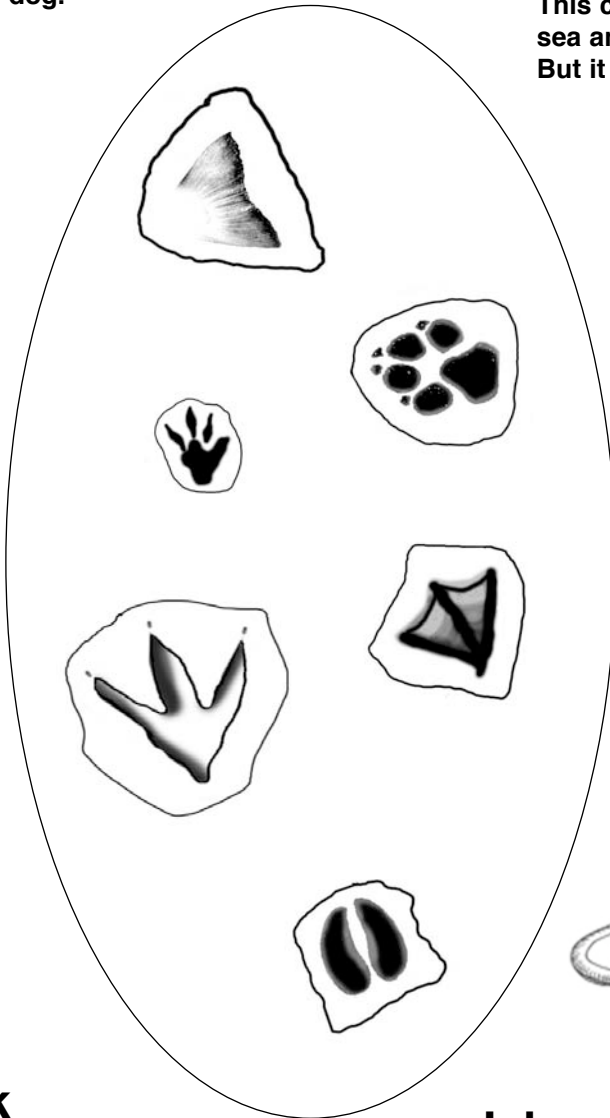

The Blue Buck

This blue coloured
antelope had cloven hooves.

Island Cloud Runner

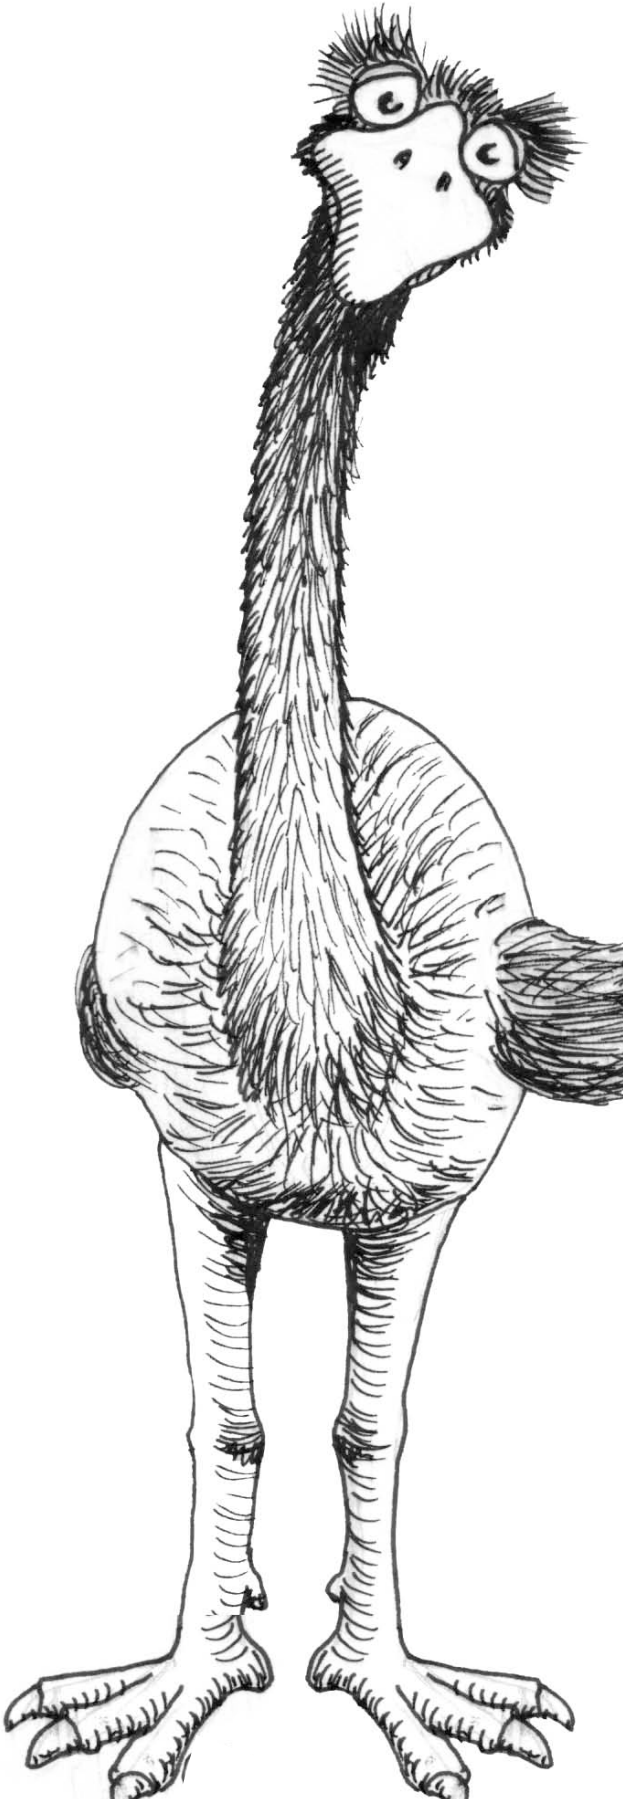

The Island Cloudrunner lived in forests
and had small feet like a rat.

What am I?

On the island of Infinity, Patrick the Moa Bird, greets the new arrivals and explains that "Infinity is where everything comes when it's extinct. The last of every species."

Each creature has to be checked-in so they have a record of every species that's ever lived. A relic such as a pawprint, a feather or a leaf is captured in stone. We call this relic a special name, see if you can work out what that is by solving the puzzle.

Have a look at the riddles below and see if you can work out the correct letter to go in the box. Remember, it will be one of the letters in the paw print. Add your answer to the box to reveal the mystery word.

- 1) My first is in FEATHER and also in FANG

- 2) My second is in BONE but not in TEETH

- 3) My third is in STONE but not in WOOD

- 4) My fourth is in SAND but not in HAND

- 5) My fifth is in ICK but not in BEAK

- 6) My sixth is in LEAF but not in TREE
