

A Dream Too Far

Down near the frozen waters
On starry nights we dreamed and played
As we lay on rocky altars
We kept love warm and named the day

We planned of other places
We dreamed of sunsets yet to come
But they came with empty faces
I looked around and you were gone
All gone!

And it seems
In the stars
That I dreamed too far
In my mind
I still hold you
But those wings are now washed out to sea

Down where the fires bleed through
That day my heart was thrown away
As rocks crashed I felt your leaving
This gentle witch gave you away
That day

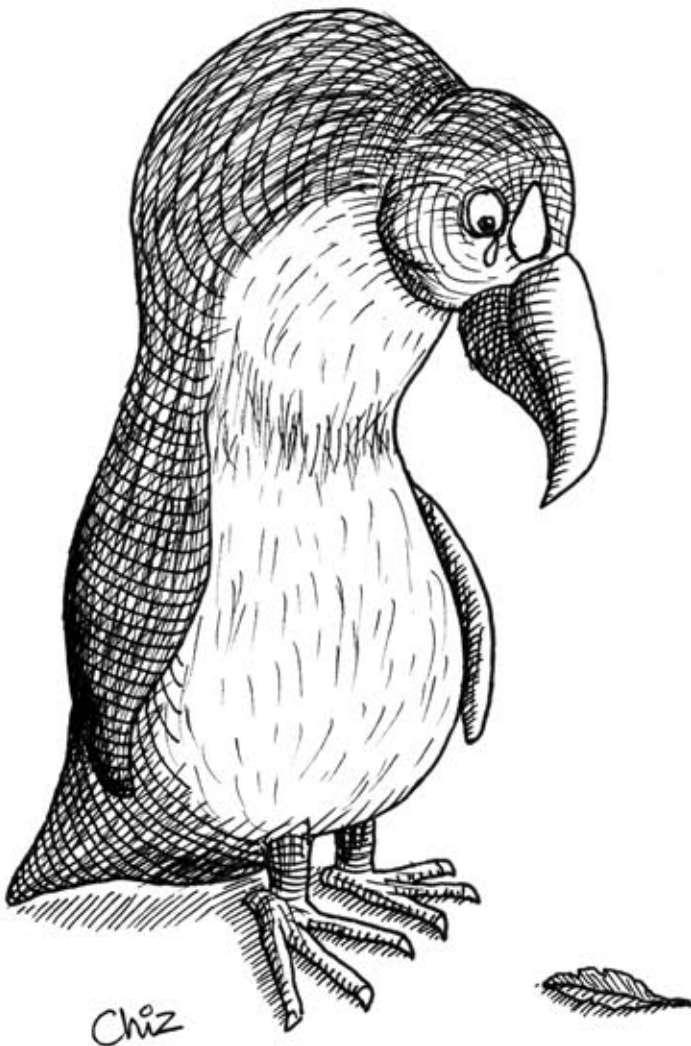

And it seems
In the stars
That I dreamed too far
In my mind
I still hold you
But those wings are now washed out to sea

And it's a dream we dreamed too far
A heartfelt lonely heart
It's a dream we dreamed too far
Too far...

No hopes of other places
No dreams on stars high up above
Though you're gone
I'll never leave you
I never said goodbye my love
My love!

And it seems
In the stars
That I dreamed too far
In my mind
I still hold you
But those wings are now washed out to sea

Can you be
In the stars
Where we dreamed too far?
In my mind
I will hold you
Till the ending of hours I'll believe
