

Distant Generation

Calling out
From through the years.
What kind of message sent
Could stop all the tears?
A little hope from after life
And YOU could make a difference
With a life!

What if behind
A distant generation
Left a clue
For all to see?
Everyone
Feel the revelation
Of the earth beneath your feet!

From the darkness
There is light
And from a distant shore
A message shines bright
A little hope from after life
and we can make a difference
With a life!

What if one day
A distant generation
Left a clue
For all to see?
Everyone
Feel the revelation
Of the earth beneath your feet!

Everyone
Feel the revelation
Of the earth beneath your feet!
Everyone
Feel the revelation
and it's all about belief!

(repeat x 4)
