

New World Dawning

Day's dawning
And the world is calling
For me and you
And Rockford too
This morning
There's an old world falling
Coz it's the day. We found our way!

And everyone can see
A message sent for you and me
Come calling
There's a new world dawning
For me!

The creatures have a secret warning
For me and you
And Rockford too
There's wonder in the life that's crawling
And it's the day
We found our way!
Now everyone can see
The secret's out for you and me
Come calling
There's a new world dawning
For me!

Lost on Infinity
We can save the world
We're happy and free!
Come calling
There's a new world dawning
For me!

Come calling
On a new world dawning
With me and you
And Rockford too
Come celebrate the life we're all in
For it's the day. We found our way!
Now everyone can see
The wonders of Infinity!

Come calling
There's a new world dawning
For me!
And me!
And me!
And me!
And me!
And me!
You'll see!
